Education

Integrated MSc in Computer Engineering

UNIVERSITY OF PATRAS

Patras, Greece

2017 - 2024

- Successfully completed all lab assignments, including Assembly, Microcontrollers, SQL, AI, Networking and Signal Processing, and created over 15 highly-marked projects regarding all domains of Computer Science and Engineering.

Experience

Teaching Assistant - Basic & Digital Electronics Lab

UNIVERSITY OF PATRAS

Patras, Greece

2019 - 2020, 2022 - 2023

- Responsible for teaching students the lab equipment's proper use.
- Answered questions and troubleshoot problems that occurred.
- Evaluated and graded students' work based on their theoretical knowledge depth, effort, and results.
- Constant communication with professors to ensure the laboratory's functionality.

Video Editor and Content Director

FREELANCE

Remotely

2019 - 2023

- Managed the content direction of over 400 projects (some of them sponsored by industry giants such as Vodafone, Adidas, VISA and LG)
- Utilizing advanced editing techniques (including scripting in Javascript), I created impressive VFX and SFX to enhance the videos' appeal.
- Developed and maintained positive relationships with clients, consistently exceeding their expectations and consequently, I became the pre-eminent choice as a YT video editor in Greece.

Awards & Qualifications

AWARDS

2015 **1st Place**, National Short-Film Competition: "Cyprus 1974-2014"

Department of
Education, Athens

QUALIFICATIONS

2015 **ECPE**, Certificate of Proficiency in English
2007 **ECDL**, European Computer Driving Licence

Projects

Thesis Topic: UniTask

MENDIX

University of Patras

Sep. 2023 - Present

- Task Managing Application

Web Development Project

HTML/CSS · BOOTSTRAP · JAVASCRIPT · NODEJS/EXPRESS

University of Patras

Sep. 2023 - Present

•

Information Retrieval Project

VECTOR SPACE MODEL · TF-IDF

University of Patras

Sep. 2023 - Feb. 2024

•

Multidimensional Data Structures Project

DATA STRUCTURES · PYTHON · SIMILARITY METRICS · WEB SCRAPING

University of Patras

Jul. 2023 - Sep. 2023

- The main goal is to compare the performance of four different data structures: **k-d trees**, **quad trees**, **range trees**, and **R-trees**. The project performs similarity queries on the indexed texts, executed using the **Locality-Sensitive Hashing (LSH)** method.
- These data structures are evaluated utilizing real datasets in various basic operations, including building, inserting, deleting, updating, and searching for different types of queries.
- Grade: 9.5/10

Knowledge Representation on the Web

REGEX · XML/XSL · RDF · SPARQL

University of Patras

Oct. 2022 - Feb. 2023

- Grade: 8/10

Quality Assurance Project

QA METRICS · PATH TESTING · FITTS' LAW

- Grade: 10/10

Compilers Project

C · FLEX · BISON

- Grade: 7/10

UniLib - Software Engineering Project

SOFTWARE DEVELOPMENT LIFE CYCLE · PROJECT DOCUMENTATION · GIT

- Grade: 8/10

Parallel Processing Project

C · OPENMP · MPI

- Grade: 7.5/10

Operating Systems Project

C · POSIX THREADS · MEMORY PAGING

- Grade: 10/10

Data Structures Project

SORTING ALGORITHMS · BSTs · HASHING

- Grade: 9/10

Object-Oriented Programming Project

JAVA · C++

- Grade: 10/10
